GOOGLE ADS AND META ADS

# Ads and SEO work better from one plan.

Each one tells the other what to do next.

ADS FIRST

# Ads bring enquiries while search builds.

SEO takes weeks to months. Ads can bring enquiries from the first week, while the pages climb.

SEARCH CONSOLE TO ADS

# Bid on searches that already convert.

Your Search Console shows which searches bring visits that turn into enquiries. Those are the safest searches to put money behind.

ADS TO SEO

# Ads show which words sell.

The search terms report shows the exact words people typed before they enquired. Those words belong in your page titles.

MEASURE ENQUIRIES, NOT CLICKS

# Track every call, form and WhatsApp chat.

Set up tracking before a campaign spends anything, so you know which ad brought which enquiry.

# 4.9×

# the ad spend back in sales.

Google Ads for a home decor store in Dubai, August to October 2024: AED 20,500 spent, AED 101,129 in sales from the campaigns.

GOOGLE ADS AND SHOPIFY, CLIENT ACCOUNT.

GOOGLE ADS AND META ADS

# Want one plan for both?

We run your ads and your SEO from the same data.
